Childrey Charmer

Anyone looking for the perfect rural retreat really need look no further. This charming, detached, thatched cottage in Childrey appears to have it all: fabulous looks, a delightful village setting and wonderfully comfortable, practical accommodation of enormous charm.

Set at the foot of the Downs, Childrey manages to be picturesque without being fussy or twee! It has a village shop, a public house, a primary school, a magnificent church and, perhaps best of all, a village pond. It is a rural idyll within easy reach of civilisation with the market town of Wantage just 2.5 miles away and Didcot Rail station just under 12 miles away.

This property is Grade II Listed and is the quintessential 'chocolate box' thatched cottage but has some truly exceptional qualities. The headroom is good and not a problem for someone of 6ft. The main reception room is glorious and light as there are windows on three sides and as it measures

approximately 21ft x 15ft, it is well proportioned and there is an open fireplace to boot!

There is also a smart and well fitted kitchen and a large utility/cloakroom on the ground floor and then three bedrooms and a bathroom upstairs.

At the rear, Corner Cottage has a delightfully private and pretty garden and to the side there is a double garage and driveway.

Cuan Ryan of Kemp & Kemp Residential said: "This is a genuinely special property and the owners are in a position where they can move out at a moment's notice if the need should arise. The house is in good condition and is for sale at a sensible price so I would advise anyone who is interested to view it without delay."

Corner Cottage, Childrey is for sale for £350,000. For further information please contact Kemp & Kemp Residential on 01865 510000, see the website www.kempandkemp.co.uk or see our advert on the back page.
