Residential, said: "This house has been finished by local craftsmen to exacting standards. The bespoke kitchen is exceptionally well designed and would meet the requirements of even the most exacting of gourmet chefs.

"The property has an entrance hall with a solid-oak staircase and a travertine floor. There are five bedrooms and four

bathrooms. The en-suite bathroom to the master bedroom is the epitome of contemporary chic."

Heyford Grange has a heritage-style double garage with an office/studio above that has a vaulted, beamed ceiling and an oak floor.

The grounds are laid to lawn and the sun room opens on to a decking that borders a brook.

The house stands in more than three acres

Mr West added: "Being in such an open setting with flat grasslands surrounding the house, there is a real feeling of space, which is also apparent in the white and cream interiors which make the lofty ceilings and rooms appear even larger."
